Catherine Eleanor

Digital Mapping Project Specialist

Detail-oriented and tech-savvy mapping professional with hands-on experience in digital cartography, GIS systems, and spatial data analysis. Adept at handling geospatial data workflows, building interactive maps, and supporting infrastructure or environmental projects with precise digital mapping.

Education

- **Master Of MGIS**
  The University Of Queensland
  2023-2025

- **Bachelor of Geography**
  The University Of Queensland
  2022-2023

- **Master Of MGIS**
  Coursera – University of California
  2020-2021

Skills

- GIS Software: ArcGIS Pro,QGIS
- Programming: Python,SQL
- Mapping: Cartographic Design
- Technical documentation
- Drone mapping and satellite imagery
- Digital Mapping Project

Certifications

ArcGS Po Professional Certificate – ESRI, 2024
Sensing Specialist – Academys Europe, 2023
Drone Sky Surveying – Pix4D Academy, 2022
Python Geospatial – DataCamp, 2021
Spatial Database – Boundless, 2020

Work Experience

- **TerraScope Agency**
  Mapping Analyst | 2025
  Assisted in compiling and cleaning spatial datasets for maritime and coastal analysis. Created static and spatial planning content.

- **GeoSpatial Dynamics**
  Mapping Project Specialist | 2024
  Spearheaded digital mapping projects for smart city development in Germany and the Netherlands delivering client and mapping project.

- **ErraScan Solutions**
  Remote Sensing Analyst | 2022
  Led the processing and interpretation of high-resolution aerial and drone imagery to generate detailed orthomosaics.
